

“KONZERT IV”

(partitur)

Piece for 4 musicians, 1 Computer and 4 Speakers

Winfried Ritsch

23.November 1999 - May 16, 2000

Notes:

All sounds should be played not too loud. The phrases should be played in blocks, like you were just producing a sound in a studio.

Each phrase has its own tempo, which means that the musician plays independent tempi. The piece is notated this way to make it easier to play the phrases with different sounds. The time where a phrase starts can be taken from a timeline. The notes are not always (but mostly) correspondent to the timeline, (because of the notation because sometimes, if tempo is very high, the notes don't fit in). There are no synchronisation points between the instruments except the stop watch.

The cents with the notes should indicate, that the pitch should be not exact the note but a little higher or lower. If some of the phrases are not playable they should be made with nearly the same sounds, even changing the notes in another octave or a quint higher or a quart lower.

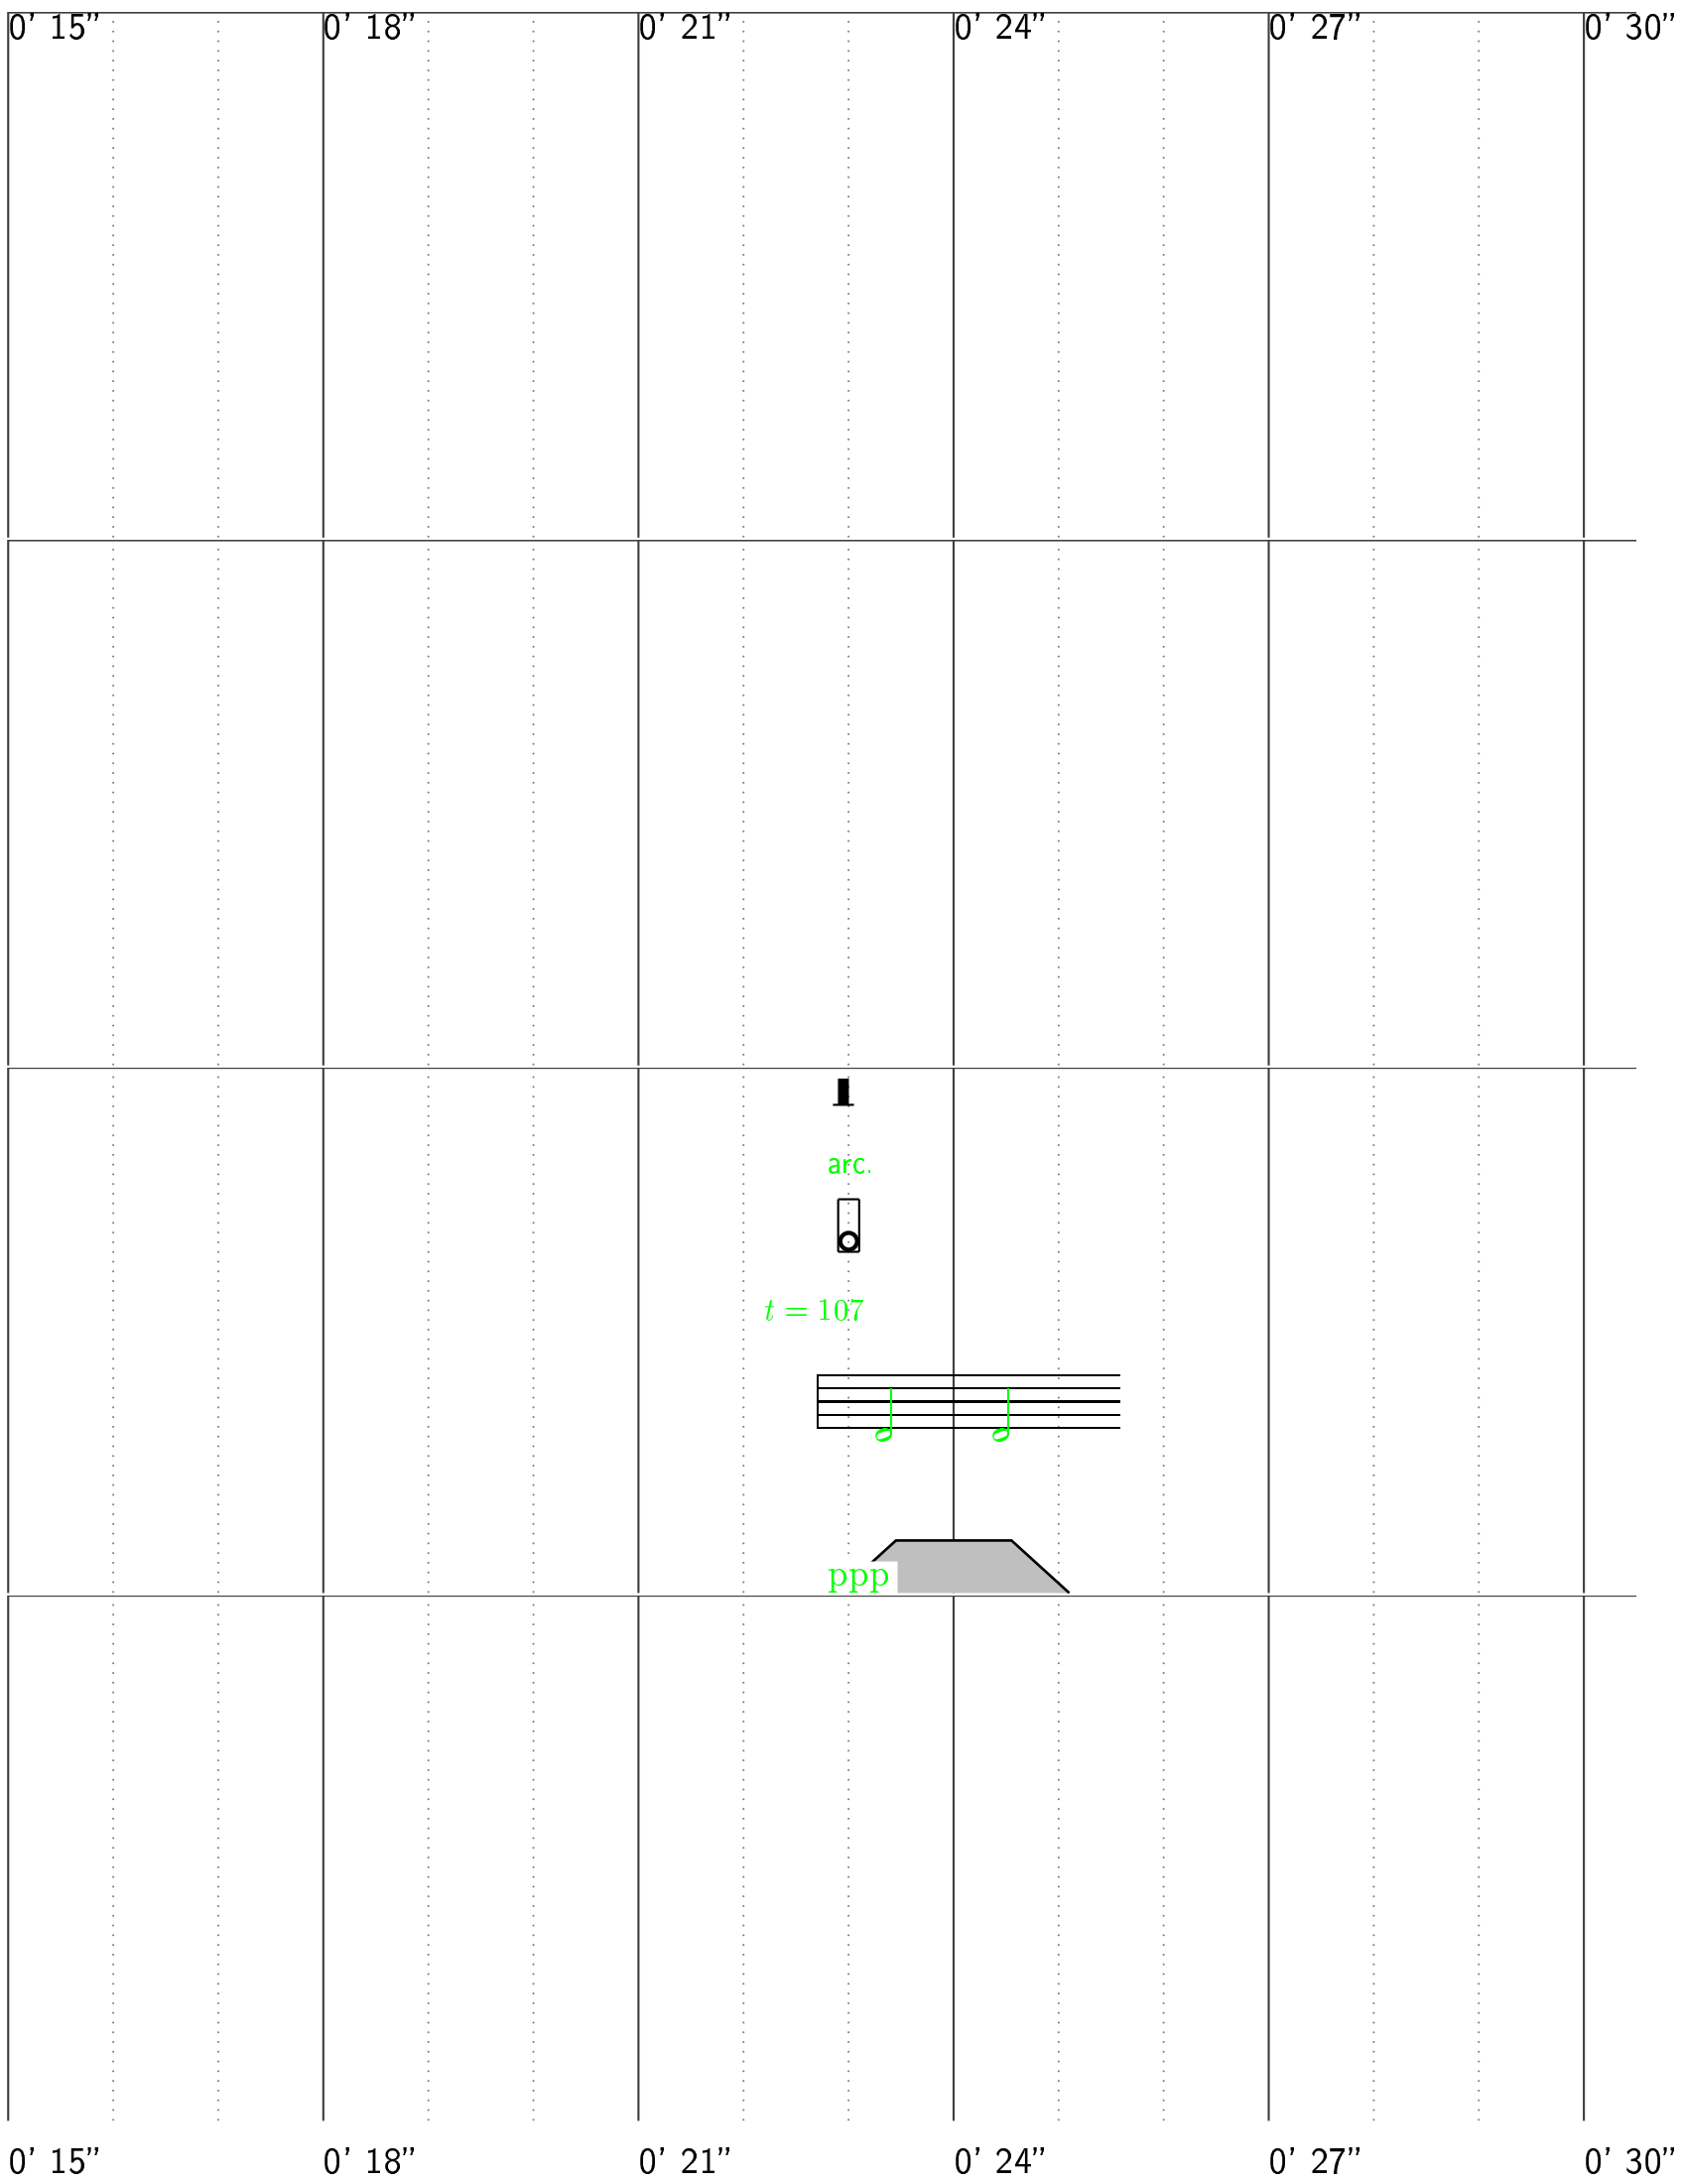

The player has a stop watch which is started synchronously with all others at time 0'00".
